GENERAL INFORMATION:

The Watership Down (and Up) is an attractive route mainly on minor roads and is organised under AUK regulations. For more information on AUK events see "Riding your first Audax" downloadable from the Winchester CTC website. The Watership Down is a winter event for experienced cyclists.

A full route sheet is provided as is a gpx file. Even if you are using the gpx, please look at the route sheet as well as it provides additional information such as the precise location of the information controls, potential road hazards and the location of any pubs on route.

N.B: As you will appreciate any event in January has to take pot luck with the weather! If severe weather is forecast, the organiser reserves the right to cancel the event. This has only been necessary once in 30 years. The route is predominantly on unclassified roads, which are not gritted in the winter and some have poor drainage, which results in surface water. Particular care should be taken if the temperature has been or is below freezing.

MUDGUARDS ARE A CONDITION OF RIDING THIS EVENT. THIS YEAR THERE WILL AGAIN BE A BIKE CHECK AT THE START TO ENSURE THAT ALL RIDERS HAVE MUDGUARDS. MUDGUARDS ARE REQUIRED BOTH FRONT AND REAR. AS A MINIMUM THESE CAN BE A CRUDCATCHER-STYLE GUARD AT THE FRONT AND A 'WHALE TAIL' (MIN 50 CM) AT THE BACK, BUT WE STRONGLY RECOMMEND THAT YOU FIT FULL LENGTH MUDGUARDS, OUT OF COURTESY TO THE VENUES WE USE AND TO YOUR FELLOW RIDERS."
NO MUDGUARDS NO RIDE

Winter tyres are strongly recommended and lights should be carried.

The entry limit is 150 and advance entry is compulsory (i.e. no entries on the day)
